**Compilation of School
Discipline Laws and
Regulations**

Prepared: January 12, 2016

Introduction

This compilation presents school discipline-related laws and regulations for U.S. states, U.S. territories, and the District of Columbia, and, where available, links to education agency websites or resources related to school discipline and student conduct. The discipline laws and regulations presented in this compilation have been categorized by type of specific discipline issue covered, according to an organizational framework developed by the National Center for Safe and Supportive Learning Environments (NCSSE). For example, one major category encompasses all laws or regulations governing states or territories that mandate specific disciplinary sanctions (such as suspension) for specific offenses (such as drug possession on school grounds). The school discipline laws and regulations were compiled through exhaustive searches of legislative websites that identified all laws and regulations relevant to each specific category. Compiled materials were subsequently reviewed by state education agency (SEA) representatives in the 50 states, Washington D.C., and the U.S. territories.

Discipline categories were not mutually exclusive. Laws and regulations often appeared across multiple categories. For jurisdictions with more extensive laws covering a breadth of topical areas, relevant sections were excerpted from the larger legislative text for inclusion in the appropriate discipline category. Laws, ordered by chapter and section number, appear first within each category followed by regulations. All laws and regulations listed within categories in the compilation also appear in the sources cited section of the document, which lists laws by chapter and section number and title, and where available, includes active hyperlinks to source websites supported or maintained by state legislatures. Additional links to government websites or resources are provided at the end of this document.

General Provisions

Authority to develop and establish rules of conduct

LAWS

279.8. General rules – bonds of employees.

The board shall make rules for its own government and that of the directors, officers, employees, teachers and pupils, and for the care of the schoolhouse, grounds, and property of the school corporation, and shall aid in the enforcement of the rules, and require the performance of duties imposed by law and the rules. The board shall include in its rules provisions regulating the loading and unloading of pupils from a school bus stopped on the highway during a period of reduced highway visibility caused by fog, snow or other weather conditions. The board shall have the authority to include in its rules provisions allowing school corporation employees to use school credit cards to pay for the actual and necessary expenses incurred in the performance of work-related duties.

Employees of a school corporation maintaining a high school who have the custody of funds belonging to the corporation or funds derived from extracurricular activities and other sources in the conduct of their duties, shall be required to furnish suitable bond indemnifying the corporation or any activity group connected with the school against loss, and employees who have the custody of property belonging to the corporation or any activity group connected with the school may be required to furnish such bond. Said bond or bonds may be in such form and penalty as the board may approve and the premiums on same shall be paid from the general fund of the corporation.

279.58. School dress code policies.

2. The board of directors of a school district may adopt, for the district or for an individual school within the district, a dress code policy that prohibits students from wearing gang-related or other specific apparel if the board determines that the policy is necessary for the health, safety, or positive educational environment of students and staff in the school environment or for the appropriate discipline and operation of the school. Adoption and enforcement of a dress code policy is not a violation of section 280.22.

279.66. Discipline and personal conduct standards.

The board of directors of a school district shall review and modify existing policies related to student discipline and student conduct that are designed to promote responsible behavior on school property and at school functions in order that the policy shall govern the conduct of students, teachers and other school personnel, and visitors; provide opportunities for students to exercise self-discipline and practice cooperative classroom behavior; and encourage students and practitioners to model fairness, equity, and respect. The policy shall specify the responsibilities of students, parents and guardians, and practitioners in creating an atmosphere where all individuals feel a sense of respect, safety, and belonging, and shall set forth the consequences for unacceptable behavior. The policy shall be published in the student handbook.

280.24. Procedures for reporting drug or alcohol possession or use.

The board of directors of each public school and the authorities in charge of each accredited nonpublic school shall prescribe procedures to report any use or possession of alcoholic liquor, wine, or beer or any controlled substance on school premises to local law enforcement agencies, if the use or possession is in

violation of school policy or state law. The procedures may include a provision which does not require a report when the school officials have determined that a school at-risk or other student assistance program would be jeopardized if a student self reports.

280.28. Harassment and bullying prohibited – policy – immunity.

3. Policy. On or before September 1, 2007, the board of directors of a school district and the authorities in charge of each accredited nonpublic school shall adopt a policy declaring harassment and bullying in schools, on school property, and at any school function, or school-sponsored activity regardless of its location, in a manner consistent with this section, as against state and school policy.

299.9. Truants – rules for punishment.

The board of directors of a public school district or the authorities in charge of an accredited nonpublic school shall prescribe reasonable rules for the punishment of truants.

Use of corporal punishment

LAWS

280.21. Corporal punishment – burden of proof.

1. An employee of an accredited public school district, accredited nonpublic school, or area education agency shall not inflict, or cause to be inflicted, corporal punishment upon a student. For purposes of this section, “corporal punishment” means the intentional physical punishment of a student. An employee’s physical contact with the body of a student shall not be considered corporal punishment if it is reasonable and necessary under the circumstances and is not designed or intended to cause pain or if the employee uses reasonable force, as defined under section 704.1, for the protection of the employee, the student, or other students; to obtain the possession of a weapon or other dangerous object within a student’s control; or for the protection of property. The department of education shall adopt rules to implement this section.

REGULATIONS

281–103.1(256B,280). Purpose.

In conjunction with Iowa Code section 280.21, the purpose of this chapter is to define and exemplify generally the limitations placed on employees of public schools, accredited nonpublic schools, and area

education agencies in applying physical contact or force to enrolled students, and to require that any such force or contact is reasonable and necessary under the circumstances. These rules also provide requirements for administrators and staff of public schools, accredited nonpublic schools, and area education agencies regarding the use of physical restraints and physical confinement and detention. The applicability of this chapter to physical restraint or physical confinement and detention does not depend on the terminology employed by the organization to describe physical restraint or physical confinement and detention.

281–103.2(256B,280). Ban on corporal punishment.

An employee of a public school district, accredited nonpublic school, or area education agency shall not inflict, or cause to be inflicted, corporal punishment upon a student. “Corporal punishment” is defined to mean the intentional physical punishment of a student. It includes the use of unreasonable or unnecessary physical force, or physical contact made with the intent to harm or cause pain.

281–103.3(256B,280). Exclusions.

Corporal punishment does not include the following:

1. Verbal recrimination or chastisement directed toward a student;
2. Reasonable requests or requirements of a student engaged in activities associated with physical education class or extracurricular athletics;
3. Actions consistent with and included in an individualized education program developed under the Individuals with Disabilities Education Act, as reauthorized, Iowa Code chapter 256B, and 281–Chapter 41; however, under no circumstance shall an individualized education program violate the provisions of this chapter;
4. Reasonable periods of detention, not in excess of school hours, or brief periods of before- and after-school detention, in a seat, classroom or other part of a school facility, unless the detention is accomplished by the use of material restraints applied to the person. If detention meets this chapter’s definition of “physical confinement and detention,” the provisions of this chapter on physical confinement and detention must be followed. For purposes of this chapter, material restraints do not include devices, objects, or techniques required or ordered for reasons of safety (e.g., safety harnesses on school buses) or for therapeutic or medical treatment (e.g., devices used for physical or occupational therapy), provided those devices, objects, or techniques are so used, and used for no other purpose;
5. Actions by an employee subject to these rules toward a person who is not a student of the school or receiving the services of an area education agency employing or utilizing the services of the employee.

281–103.4(256B,280). Exceptions and privileges.

Notwithstanding rule 103.2(256B,280), no employee subject to these rules is prohibited from:

1. Using reasonable and necessary force, not designed or intended to cause pain, in order to accomplish any of the following:
 - To quell a disturbance or prevent an act that threatens physical harm to any person.
 - To obtain possession of a weapon or other dangerous object within a pupil’s control.
 - For the purposes of self-defense or defense of others as provided for in Iowa Code section 704.3.
 - For the protection of property as provided for in Iowa Code section 704.4 or 704.5.
 - To remove a disruptive pupil from class or any area of school premises, or from school-sponsored activities off school premises.
 - To prevent a student from the self-infliction of harm.
 - To protect the safety of others.

2. Using incidental, minor, or reasonable physical contact to maintain order and control.

An employee subject to these rules is not privileged to use unreasonable force to accomplish any of the purposes listed above.

Use of student and locker searches

LAWS

808A.2. Searches of students, protected student areas, lockers, desks, and other facilities or spaces.

1. The school board of each public school and the authorities in charge of each nonpublic school shall establish and may search a student or protected student area pursuant to a student search rule. The student search rule shall be published in each public school's and each nonpublic school's student handbook. A school official may search individual students and individual protected student areas if both of the following apply:

- a. The official has reasonable grounds for suspecting that the search will produce evidence that a student has violated or is violating either the law or a school rule or regulation.
- b. The search is conducted in a manner which is reasonably related to the objectives of the search and which is not excessively intrusive in light of the age and gender of the student and the nature of the infraction.

2. School officials may conduct periodic inspections of all, or a randomly selected number of, school lockers, desks, and other facilities or spaces owned by the school and provided as a courtesy to a student. The furnishing of a school locker, desk, or other facility or space owned by the school and provided as a courtesy to a student shall not create a protected student area, and shall not give rise to an expectation of privacy on a student's part with respect to that locker, desk, facility, or space. Allowing students to use a separate lock on a locker, desk, or other facility or space owned by the school and provided to the student shall also not give rise to an expectation of privacy on a student's part with respect to that locker, desk, facility, or space. However, each year when school begins, the school district shall provide written notice to all students and the students' parents, guardians, or legal custodians, that school officials may conduct periodic inspections of school lockers, desks, and other facilities or spaces owned by the school and provided as a courtesy to a student without prior notice. An inspection under this subsection shall either occur in the presence of the students whose lockers are being inspected or the inspection shall be conducted in the presence of at least one other person.

However, the superintendent or chief administering officer of a school or school district may modify expulsion requirements on a case-by-case basis. This section shall not be construed to prevent the board of directors of a school district or the authorities in charge of a nonpublic school that have expelled a student from the student's regular school setting from providing educational services to the student in an alternative setting. If both this section and section 282.4 apply, this section takes precedence over section 282.4. For purposes of this section, "weapon" means a firearm as defined in 18 U.S.C. § 921. The designated representative shall disclose this information only to those school employees whose duties require them to be involved with the student. REGULATIONS

281–103.1(256B,280). Purpose.

In conjunction with Iowa Code section 280.21, the purpose of this chapter is to define and exemplify generally the limitations placed on employees of public schools, accredited nonpublic schools, and area education agencies in applying physical contact or force to enrolled students, and to require that any such force or contact is reasonable and necessary under the circumstances. These rules also provide requirements for administrators and staff of public schools, accredited nonpublic schools, and area education agencies regarding the use of physical restraints and physical confinement and detention. The applicability of this chapter to physical restraint or physical confinement and detention does not depend on the terminology employed by the organization to describe physical restraint or physical confinement and detention.

281–103.5(256B,280). Reasonable force.

In determining the reasonableness of the physical force used by a school employee, the following factors shall be applied:

1. The size and physical, mental, and psychological condition of the student;
2. The nature of the student's behavior or misconduct provoking the use of physical force;
3. The instrumentality used in applying the physical force;
4. The extent and nature of resulting injury to the student, if any;
5. The motivation of the school employee using physical force.

Reasonable physical force, privileged at its inception, does not lose its privileged status by reasons of an injury to the student, not reasonably foreseeable or otherwise caused by intervening acts of another, including the student.

281–103.6(256B,280). Physical confinement and detention.

If a student is physically confined and detained in a portion of a school facility, the following conditions shall be observed. For the purposes of this chapter, "physical confinement and detention" means the confinement of a student in a time-out room or some other enclosure, whether within or outside the classroom, from which the student's egress is restricted.

1. The area of confinement and detention shall be of reasonable dimensions, and shall be free from hazards and dangerous objects or instruments, considering the age, size, and physical and mental condition of the student subject to confinement and detention;
2. There shall be sufficient light and adequate ventilation for human habitation;
3. A comfortable temperature shall be maintained, consistent with the facility that includes the confinement and detention area;
4. Reasonable break periods shall be afforded the student to attend to bodily needs. However, sleep shall not be considered a "bodily need" for purposes of this subrule;
5. The period of detention and confinement is reasonable, considering the age, size, and physical and mental condition of the student subject to confinement and detention, and not in excess of the hours in a school day as defined by local board policy or rule; however, reasonable periods of before- and after-school detention are permissible. If a period of physical confinement and detention exceeds the shorter of 60 minutes or the school's typical class period, staff members shall evaluate the continued need for physical confinement and detention, shall obtain administrator (or designee) approval for any continued confinement and detention, and shall comply with any administrator (or designee) directives concerning any continued confinement and detention;

6. Adequate and continuous adult supervision is provided;
7. Material restraints applied to the person are not used to effect confinement;
8. If a room or enclosure used for physical confinement and detention has a locking mechanism, such room and mechanism shall comply with all applicable building code requirements and the following additional requirements:

If a locking mechanism is used, it shall be constructed so it will engage only when a handle, knob, or other device is held in position by a person, unless the mechanism is electrically or electronically controlled and automatically releases when the building's fire alarm system is activated, the building's severe weather warning system is activated, or electrical power to the mechanism is interrupted.

When the locking mechanism is released, the door must be able to be readily opened from the inside.

If a locking mechanism requires a handle, knob, or other device to be held in position by a person before the mechanism is engaged, no person shall take any action, or cause such action to be taken, or employ any object, device, or instrument, or cause such to be employed, that disables the handle, knob, or other device such that the locking mechanism engages or remains engaged without the handle, knob, or other device being held in position by a person.

281–103.7(256B,280). Additional minimum mandatory procedures.

If a public school, accredited nonpublic school, or area education agency seeks to use physical restraint or physical confinement and detention, or both, it shall do so in compliance with the minimum requirements of this chapter. The board of a public school, accredited nonpublic school, or area education agency may adopt policies and procedures regarding the use of physical restraint or physical confinement and detention, or both, that exceed the minimum requirements contained in this chapter. School officials may conduct periodic inspections of all, or a randomly selected number of, school lockers, desks, and other facilities or spaces owned by the school and provided as a courtesy to a student. The furnishing of a school locker, desk, or other facility or space owned by the school and provided as a courtesy to a student shall not create a protected student area, and shall not give rise to an expectation of privacy on a student's part with respect to that locker, desk, facility, or space. Allowing students to use a separate lock on a locker, desk, or other facility or space owned by the school and provided to the student shall also not give rise to an expectation of privacy on a student's part with respect to that locker, desk, facility, or space. However, each year when school begins, the school district shall provide written notice to all students and the students' parents, guardians, or legal custodians, that school officials may conduct periodic inspections of school lockers, desks, and other facilities or spaces owned by the school and provided as a courtesy to a student without prior notice. An inspection under this subsection shall either occur in the presence of the students whose lockers are being inspected or the inspection shall be conducted in the presence of at least one other person.

The rules adopted under section 279.8 shall require, once school officials have been notified by a juvenile court officer that a student attending the school is under supervision or has been placed on probation, that school officials shall notify the juvenile court of each unexcused absence or suspension or expulsion of the student.

1. The board of directors of each public school and the authorities in charge of each accredited nonpublic school shall adopt a policy and the superintendent of each public school shall adopt rules which provide that the school district or school may share information contained within a student's permanent record pursuant to an interagency agreement with state and local agencies that are part of the juvenile justice system. The board of each school district may appoint a truancy officer. The board of each school district, which does not appoint a truancy officer for the district, shall designate a suitable person to collect information on the numbers of children in the district who are truant.

The board may appoint a member of the police force, marshal, teacher, school official, or other suitable person to serve as the district truancy officer.

299.12. Violation of attendance policy – attendance cooperation meeting – agreement.

1. For the purposes of this section, "school truancy officer" means a truancy officer appointed under section 299.10 or any other person designated by a public school board or a governing body of an accredited nonpublic school to administer provisions of this section.

2. This section is not applicable to a child who is receiving competent private instruction or independent private instruction in accordance with the requirements of chapter 299A. If a child is not in compliance with the attendance requirements established under section 299.1, and has not completed educational

requirements through the sixth grade, and the school has used every means available to assure the child does attend, the school truancy officer shall contact the child's parent, guardian, or legal or actual custodian to participate in an attendance cooperation meeting. The parties to the attendance cooperation meeting may include the child and shall include the child's parent, guardian, or legal or actual custodian and the school truancy officer. The school truancy officer contacting the participants in the attendance cooperation meeting may invite other school officials, a designee of the juvenile court, the county attorney or the county attorney's designee, or other persons deemed appropriate to participate in the attendance cooperation meeting.

3. The purpose of the attendance cooperation meeting is for the parties participating in the meeting to attempt to ascertain the cause of the child's nonattendance, to cause the parties to arrive at an agreement relative to addressing the child's attendance, and to initiate referrals to any services or counseling that the parties believe to be appropriate under the circumstances. The terms agreed to shall be reduced to writing in an attendance cooperation agreement and signed by the parties to the agreement. Each party signing the agreement shall receive a copy of the agreement, which shall set forth the cause identified for the child's nonattendance and future responsibilities of each party.

4. If the parties to an attendance cooperation meeting determine that a monitor would improve compliance with the attendance cooperation agreement, the parties may designate a person to monitor the agreement. The monitor shall be a designee of the public school board or governing body of the accredited nonpublic school. The monitor may be a volunteer if the volunteer is approved by all parties to the agreement and receives a written authorization for access to confidential information and for performing monitor activities from the child's parent, guardian, or custodian. A monitor shall contact parties to the attendance cooperation agreement on a periodic basis as appropriate to monitor performance of the agreement.

5. If the parties fail to enter into an attendance cooperation agreement, or the child's parent, guardian, or custodian acting as a party violates a term of the attendance cooperation agreement or fails to participate in an attendance cooperation meeting, the child shall be deemed to be truant.

6. A public school board or governing body of an accredited nonpublic school shall exercise the authority granted under this section as a means of increasing and ensuring school attendance of young children, as education is a critical element in the success of individuals and good attendance habits should be developed and reinforced at an early age.
